

Swagger UI interface showing the API endpoint **POST /projects** (Создание нового проекта). The description is "Создание нового проекта в базе данных".

Parameters: No parameters.

Request body: Required, type `application/json`. Example Value / Schema:

```
{  "projectId": 1,  "projectName": "string"}
```

Responses:

Code	Description	Links
200	Проект найден Media type: <code>*/*</code> Content Accept header: Example Value / Schema: <pre>{ "projectId": 1, "projectName": "string"}</pre>	No links
500	Ошибка сервера	No links

Swagger UI interface showing the API endpoint **DELETE /projects/{id}** (Удаление проекта по ID). The description is "Удаление проекта по ID из базы данных".

Parameters:

Name	Description
id (required)	id проекта

integer(int32) (path)

Responses:

Code	Description	Links
200	Проект найден Media type: <code>*/*</code> Content Accept header: Example Value / Schema: <pre>{ "projectId": 1, "projectName": "string"}</pre>	No links
404	Проект не найден Media type: <code>*/*</code> Example Value / Schema: <pre>{ "reason": "string"}</pre>	No links
500	Ошибка сервера	No links

Swagger UI interface showing the API endpoint **GET /projects/{id}/timesheets** (Получение списка табелей проекта по ID). The description is "Получение списка табелей проекта по ID из базы данных".

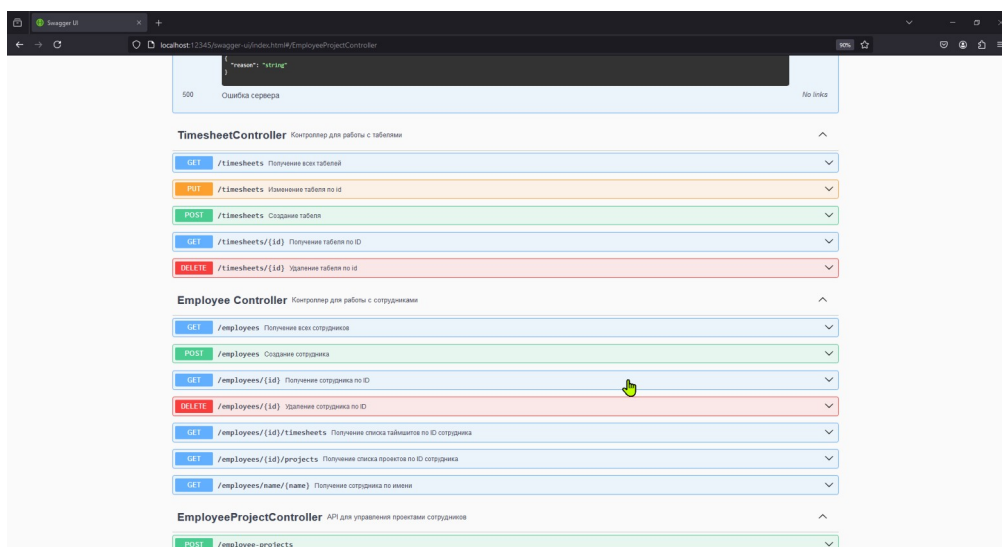

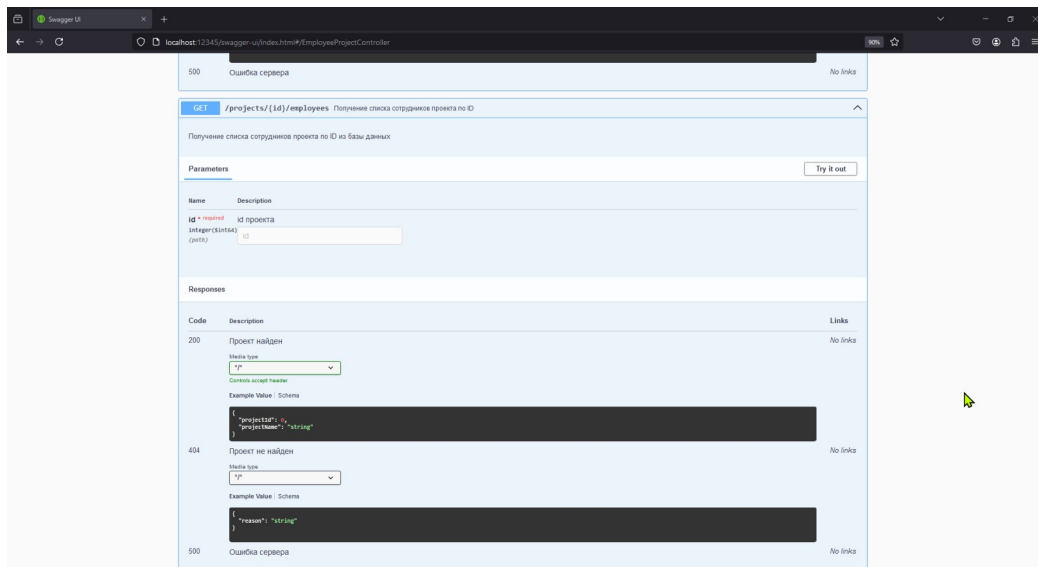

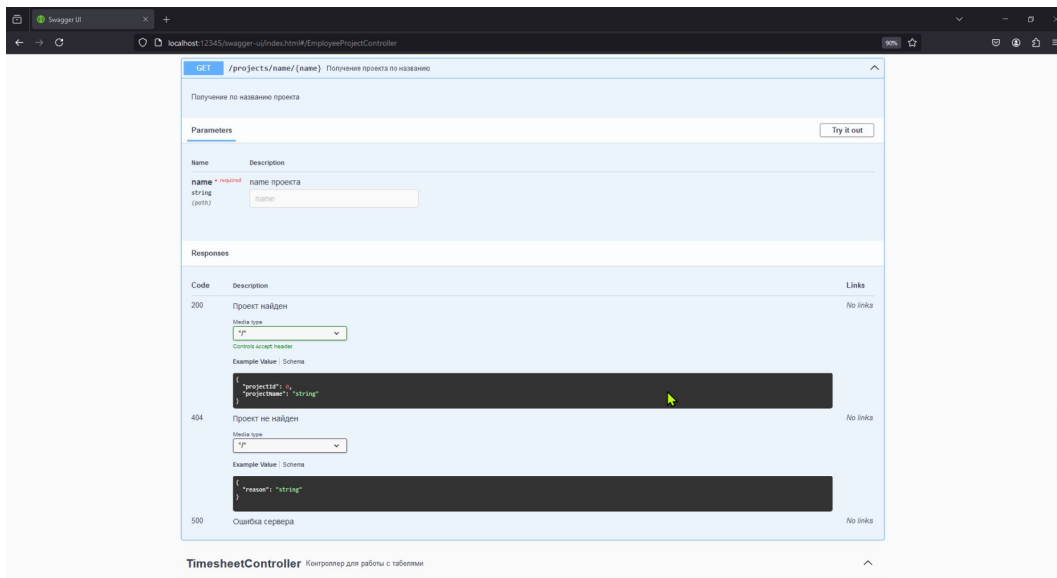

Parameters:

Name	Description
id (required)	id проекта

integer(int32) (path)

Responses:

Code	Description	Links
200	Проект найден Media type: <code>*/*</code> Content Accept header: Example Value / Schema: <pre>{ "projectId": 1, "projectName": "string"}</pre>	No links
404	Проект не найден Media type: <code>*/*</code> Example Value / Schema: <pre>{ "reason": "string"}</pre>	No links
500	Ошибка сервера	No links

Swagger UI interface showing the API definition for TimesheetController. The endpoint is GET /timesheets (Получение всех таблиц).

Parameters:

Name	Description
createdAtBefore (optional)	createdAtBefore data создания до
createdAtAfter (optional)	createdAtAfter data создания после

Responses:

Code	Description	Links
200	Проект найден	No links
500	Ошибка сервера	No links

Example Value:

```
{
  "project": "string",
  "timesheet": "string"
}
```

Swagger UI interface showing the API definition for TimesheetController. The endpoint is PUT /timesheets (Изменение таблицы по ID).

Parameters:

No parameters

Request body: application/json

Example Value:

```
{
  "timesheet": "string",
  "timesheetproject": "string",
  "timesheettimesheet": "string",
  "timesheet": "string",
  "timesheet": "string"
}
```

Responses:

Code	Description	Links
200	Проект найден	No links
404	Проект не найден	No links
500	Ошибка сервера	No links

Example Value:

```
{
  "timesheet": "string",
  "timesheetproject": "string",
  "timesheettimesheet": "string",
  "timesheet": "string",
  "timesheet": "string"
}
```

Swagger UI interface showing the API definition for TimesheetController. The endpoint is POST /timesheets (Создание таблицы).

Parameters:

No parameters

Request body: application/json

Example Value:

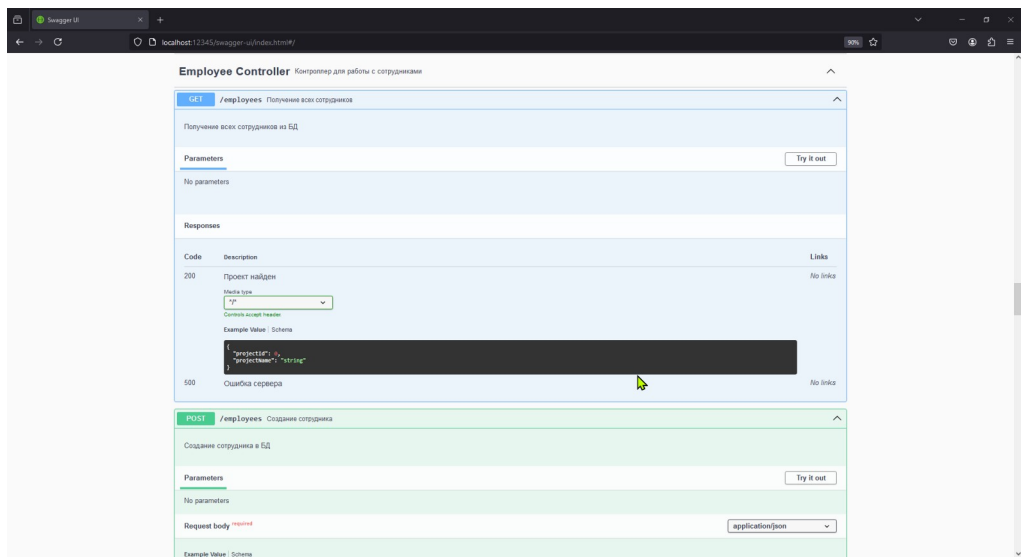

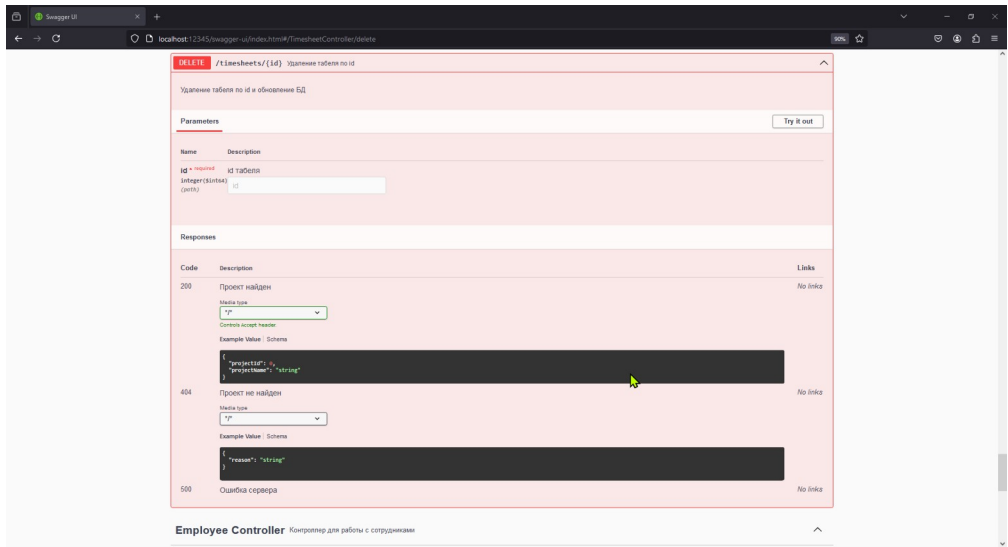

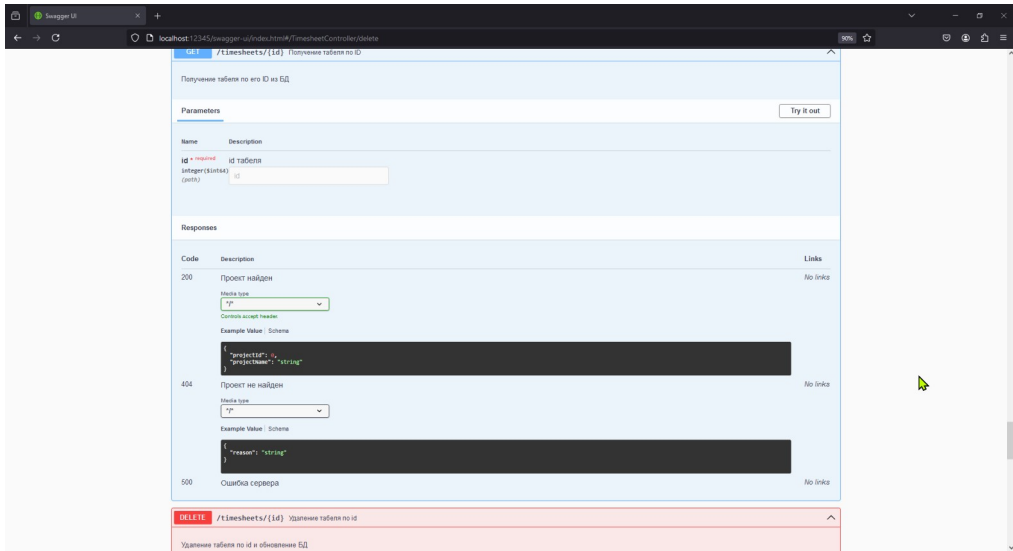

```
{
  "timesheet": "string",
  "timesheetproject": "string",
  "timesheettimesheet": "string",
  "timesheet": "string",
  "timesheet": "string"
}
```

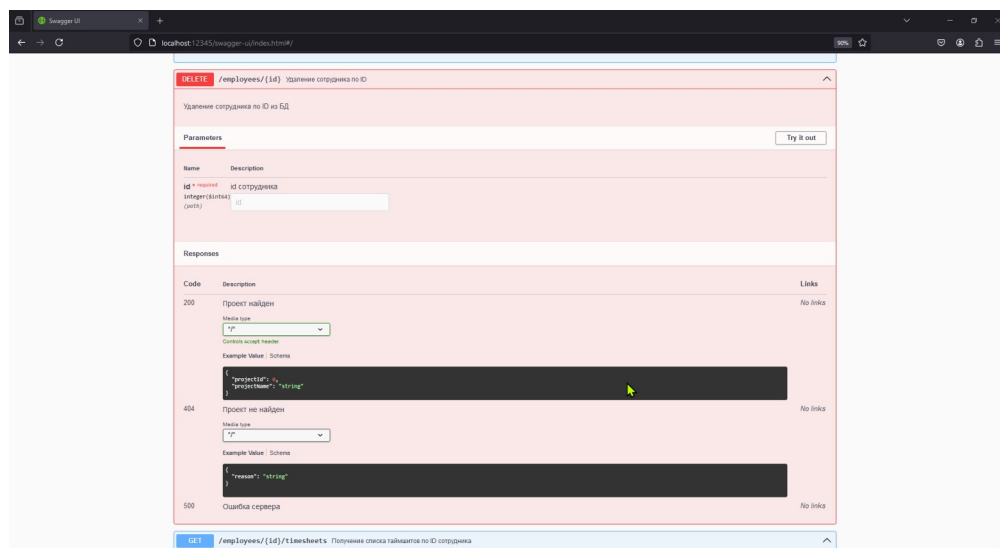

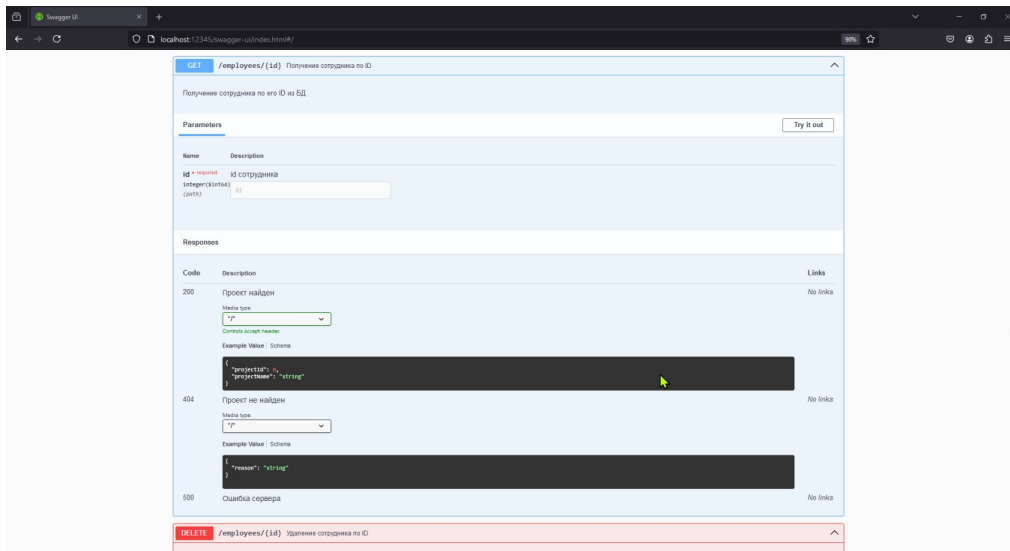

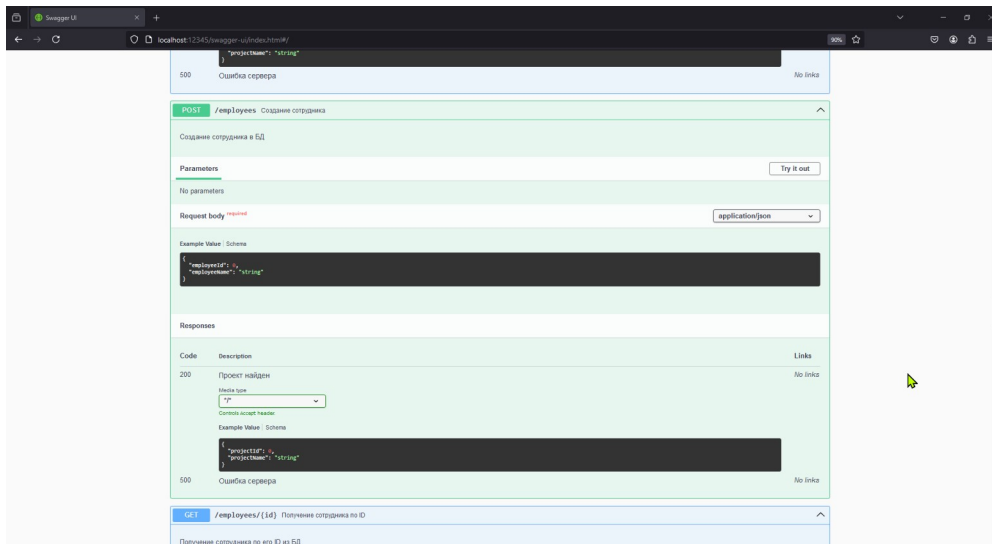

Responses:

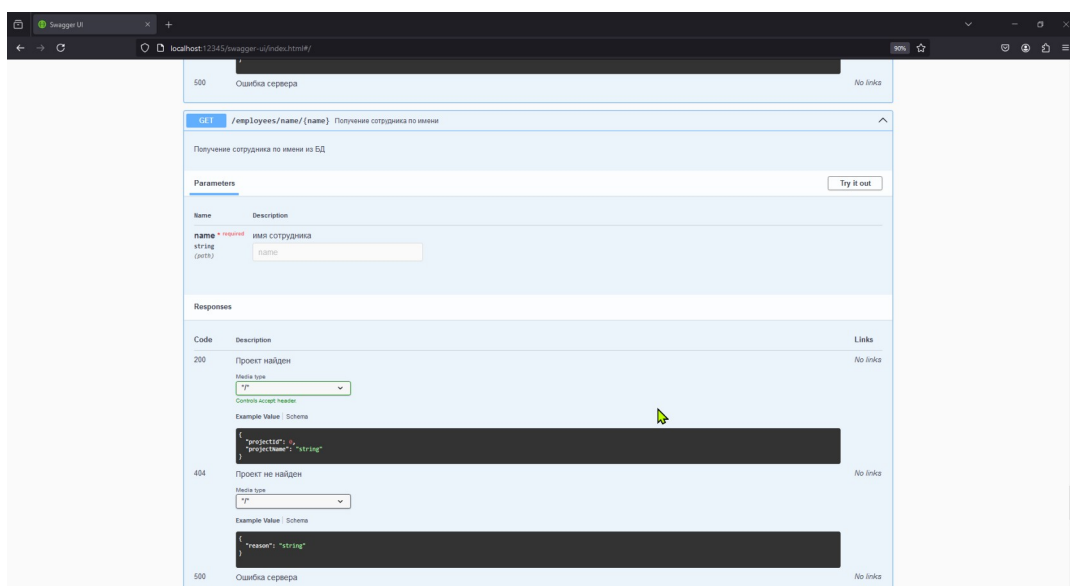

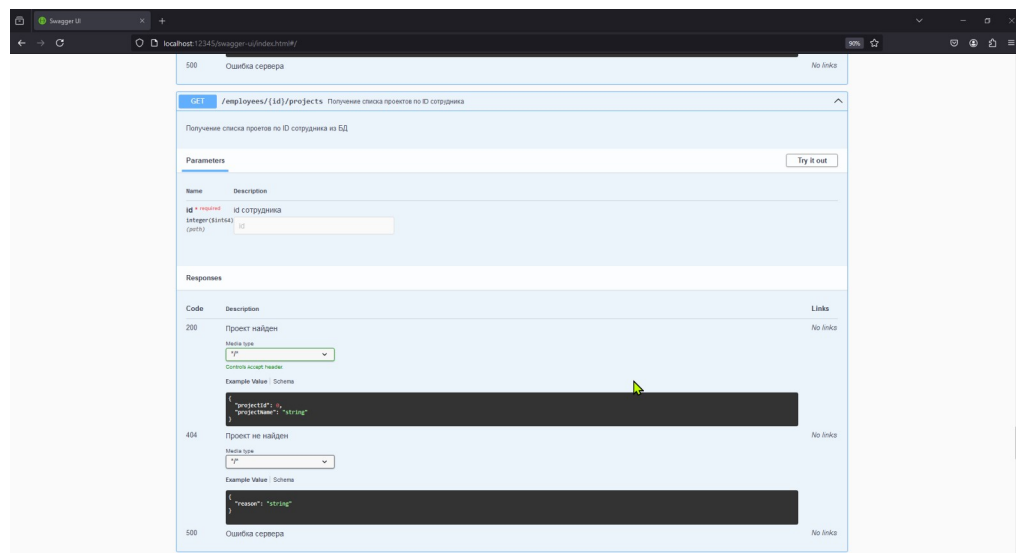

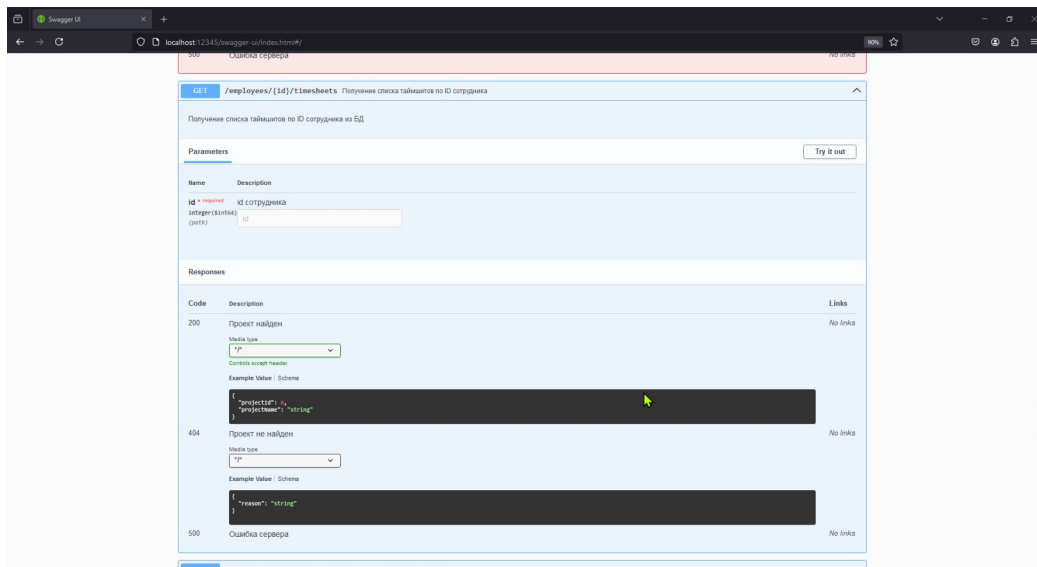

Code	Description	Links
200	Проект найден	No links
500	Ошибка сервера	No links

Example Value:

```
{
  "timesheet": "string",
  "timesheetproject": "string",
  "timesheettimesheet": "string",
  "timesheet": "string",
  "timesheet": "string"
}
```
